## Surface Detail

- Representing all detail in an image with polygons would be cumbersome

- Specific details
- Structured noise
- Pattern w/ randomness
- Section through volume
- Bumps

# Texture Coordinates

- Assign coordinates to each vertex
- Within each triangle use linear interpolation
- Correct for distortion!

---

---

---

# MIP Map

- Pre-compute filtered versions of the texture
  - A given UV rate is some level of the texture
  - Tri-linear filtering  $UV \times \text{map level}$
